ROBERTO CAVALLI'S FASHION WORLD. BECAUSE YOU LOVE TO BE DISTINCT

roberto cavalli

THE RENAISSANCE THAT REVOLUTIONIZED ATTIRE
BE THE FASHION STATEMENT

ROBERTO CAVALLI, the Fashion czar who overthrew the monotony in the attire industry overnight, with his innovative ideas, soon became the sanctum-sanctorum for fashionistas. Staying true to his roots from Florence, Italy; the place that hosted many legends who brought about remarkable evolutions, beyond fathom, in art, literature, fashion and architecture, had a magnanimous impact on Roberto Cavalli.

Curated to impress, the designs are bespoke, adding depth, character and style to the personality. The attires often feature singular extraordinary exuberant prints and accessories, and often hues of neutral colours are contrasted with a bold colour palette.

BECAUSE YOU LOVE FASHION.

You Love Cavalli interiors.

Roberto Cavalli, the name that is synonymous with fashion has been taking over the style-statement industry with his avant-garde fashion concepts; inspired by his hometown, Florence, the cradle of renaissance, Cavalli interiors are an extension of his interests, bringing the glitz and glamour of runway to private homes.

For the first time, Roberto Cavalli designs the interiors of an iconic residential tower with a range of exquisite home-accessories and ornate fittings from Cavalli interiors. Presenting Cavalli's take on elite homes on par with luxury and fashion.

THE NAME, I LOVE FLORENCE.

Our customers and investors are special to us, just as Florence is to Roberto Cavalli. His inspirations are heavily drawn from the city, rich with revolutionary connoisseurs of art, literature, fashion and architecture. The cradle of renaissance, the epicenter of everything innovative, Florence, has a significant influence on Cavalli whose works aren't adaptations but an evolution in fashion.

Such is the magnitude of inspiration you gave us for creating a tower so unique, incorporating the holistic aspects of lifestyle in architecture that radiate optimism and harmony.
